The Sugar Monopoly.

Special to the GAZETTE.
NEW YORK, March 31.—A dispatch from San Francisco stating that Theodore Havemeyer has made an agreement with Claus Spreckels, dividing the territory and ending competition caused a sharp advance in the prices of sugar stock. Officials of the trust, however, deny the statement. Neither H. Havemeyer nor Theodore Havemeyer have been on the Pacific Coast recently. H. O. Havemeyer says: "There is not one word of truth in it. There never has been a war with Claus Spreckels. There has been no compact made and no division of territory. If anything has been done it is a private matter with Havemeyer and Elder, and has nothing to do with the American Company. If there are any negotiations on foot it is a private matter with Havemeyer and Elder." Theodore Havemeyer and Treasurer Searls also denied that any deal had been made, and said that if a deal had been made it was with Havemeyer and the Elder Company and not with the trust.

SAN FRANCISCO, March 31.—In regard to the statement that the Spreckels and Havemeyer interests had been consolidated, A. B. Spreckels this morning confirmed the rumor of an agreement, but the terms, he said, were personal and confidential. It is reported that the reasons for a combination are that the Hawaiian sugar raisers have crowded every pound of raw material into this market that they could get transported before the tariff drops, and as both the trust and Spreckels were under contract to buy, they were forced to take it all, no matter how fast it arrived. They are, it is stated, consequently overstocked with high-priced goods and have combined to keep up the prices until the stock is worked off.

A Newsboy's Revenge.

By Associated Press.
CHICAGO, March 31.—Charges of a highly sensational character are made in the suit for \$100,000 damages begun in the Circuit Court this morning. The plaintiff, Eugene Dunnivant, formerly a newsboy, claims his life has been wrecked as a result of a conspiracy between Orin W. Potter, the millionaire President of the Illinois Steel Company, and Tom Fox and James Hutchings and Frank Allen, who are also made defendants. It is alleged that a deep plot was laid by Potter to break up the acquaintance between his daughter and Dunnivant, and with this end in view, the plaintiff claims, he has been innocently made to serve four years in the penitentiary. The charge is also made that the then editor of a newspaper in Chicago suppressed the boy's story on receiving \$15,000 from Potter. A New York paper was procured and published the story, which created a decided sensation at the time.

Serious Trouble Looked For.

By Associated Press.
PITTSBURGH, March 31.—There was no rioting in this region last night and all is quiet this morning. A raid was expected at Morewood during the night and several hundred strikers marched past the works shortly after midnight, but did not return. The works are in operation with a reduced force, and effort will be made to keep them working. The workmen are arming and serious trouble is expected before the strike is over.

With the exception of President Gumpers, all members of the Executive Board of the American Federation of Labor are in this city for the purpose of holding a conference on the critical situation in the coke regions. Efforts will probably be made to effect a compromise and end the strike.

The Duty Off Sugar.

By Associated Press.
NEW YORK, March 31.—The duty on sugar comes off at 12 o'clock to-night and the wholesale stores will open then to meet the demands from retailers. A difference of two cents per pound will, it is announced, result in enormous sales, as the retail market is practically bare of stock.

The Reports Confirmed.

By Cable and Associated Press.
CALCUTTA, March 31.—Official dispatches received here by the government official confirm the report of the massacre of Ghoorkas at Manipur, in the province of Assam, where about 470 of these native soldiers were slain by the hostile tribes of men of Assam after two days of desperate fighting. The fate of the British officers in command of the Ghoorkas and of Chief Commissioner James W. Quinton, who was conducting negotiations at Darbar for the arrest of a prominent chief who had been instrumental in deposing Rajah of Manipur, is still uncertain, but the Viceroy of India, Marquis of Lansdowne, believed that all officers and officials have either met their death or that they are held as prisoners.

In addition to the disaster at Manipur, it is believed a force of British troops, composed of a detachment of two hundred soldiers of the Bengal Infantry and about eighty Ghoorkas, who were marching from Shillong to Manipur in order to re-inforce the forty-second and forty-fourth Ghoorka light infantry, which composed the escort of Chief Commissioner Quinton, have also been attacked and have shared the fate of their comrades at Manipur. The Bengal infantry detachment and eighty Ghoorkas, it appears, were set upon by the Assamese as the native troops referred to were passing through a difficult and dangerous pass, and though they fought gallantly against heavy odds, the rebel tribesmen, from advantageous positions which they occupied on the sides of the pass and ahead and behind the British force, poured such a destructive fire into the ranks of the Bengal and Ghoorkas that the latter are said to have been killed to a man. The Viceroy is hurrying troops into the Province of Assam in order to punish the hostiles. Troops are also being sent into states located in proximity to Assam in order to prevent any possible disorder or warlike outbreak, which it is thought might follow the spreading of the news of the massacre of the British troops at Manipur.

American Held in Rome.

By Associated Press.
WASHINGTON, March 31.—It is reported that eighteen American citizens have been seized and imprisoned in Rome, to be held as hostages. Secretary Blaine has been seen by an Associated Press reporter but absolutely refuses to say one word.

It is now reported around the State Department that it was at Florence that eighteen Americans are thrown into prison, instead of at Rome, as at first reported. It is also said that others have suffered the same fate in Italy, and in all the cases the Italian officials refused to give the imprisoned persons any reason for their arrest.

Railroad Officials Indicted.

By Associated Press.
NEW YORK, March 31.—The Directors of the New York and New Haven and Hartford Railroad Company to-day were indicted by the Grand Jury for misdemeanor in connection with the fatal collision in the Fourth avenue tunnel, February 20th last, whereby there were six lives lost. The names of those indicted are Charles P. Clark, Wilson W. Hunt, E. H. Trowbridge, Wm. D. Bishop, Nathaniel Wheeler, Henry C. Robinson, Edward M. Reed, Joseph Park, Chauncey M. Depew, Henry S. Lee, William Rockefeller and Leverett W. Brainard.

The Red Bluff Fire.

Special to the GAZETTE.
RED BLUFF (Cal.), March 31.—The fire in the western addition yesterday afternoon destroyed about \$5,000 worth of property. Two big barns, three fine horses, hay and the buildings were totally and partially burned. A heavy wind was blowing from the north. Mr. Manor, John Knight, Curtis Ballard, W. O. Jennings and Martin & Scott are the heaviest losers. Insured for about half its losses.

Sent to Jail for Contempt.

By Associated Press.
CHICAGO, March 31.—Judge McConnell this morning sent J. J. Hoppes to the county jail for 90 days for contempt of Court and held him in bonds of \$2,000 on a charge of bribing a jury, having before it a case against the West Chicago City Railway Company for damages. Martin T. Shannon was also held in the same amount for alleged complicity in the crime.

Partially Destroyed.

By Cable and Associated Press.
LONDON, March 31.—The residence of Arthur Wilson, known as "Tranby Croft," near Doncaster, where the famous baccarat scandal took place, and which Sir William Gordon Cumming was involved while playing in company with the Prince of Wales, has been partly destroyed by fire.

LA GRANDE (Ogn.), March 31.—The business portion of the town was totally destroyed by fire this morning.

Died on the Train.

Special to the GAZETTE.
BENICIA (Cal.), March 31.—A woman died in the train for Sacramento on its arrival here at 9:30 this morning. Coroner King took charge of the body and made an examination. Nothing was found to show her identity. She had a ticket for Colusa Junction and a letter from a railroad man at Dunsmuir signed "Jack." She wore a gold watch and a cameo ring, and was attired in a plaid dress, brown jacket and black felt hat. She had light brown hair and brown eyes. An inquest will be held this morning.

The woman was aged about 22 years. No papers were on the body. She was evidently of German or Swedish descent. Appearance goes to show that a criminal operation had been performed upon her in San Francisco, causing death. The officers are investigating the matter and have telegraphed to Colusa Junction, which was her destination. Her name is thought to be Kilburna her; ticket had an Oakland Ferry punch in it.

The Kincaid Trial.

By Associated Press.
WASHINGTON, March 31.—In the Kincaid trial this morning the defense confined itself to an attempt to prove that Taulbee had made threats against Kincaid and that those threats had been communicated to the defendant. The most important witness was Mrs. Mary Millmore, who testified that on the day of the shooting Donnellson had told her of the difficulty between Taulbee and Kincaid and had said Taulbee had warned Kincaid to arm himself. He had also told her that he had been with Taulbee a good part of the day in order to keep him away from Kincaid.

The Deadly Grippe.

By Associated Press.
CHICAGO, March 31.—There were two hundred deaths reported at the health office yesterday. Grippe, pneumonia and kindred diseases are the principal causes. It is one of the largest records for a single day the office has ever received. The proportionate number of old people who died is unusually large. The record of deaths since noon yesterday, up to noon to-day, is 146. Seven of these are reported to have been from the grippe complicated with other diseases. There 196 policemen on the sick list to-day.

The Omaha Bridge Trouble.

By Associated Press.
NEW YORK, March 31.—The reports that the Omaha bridge trouble has been settled is denied by the officials of both the Union Pacific and Rock Island roads. President Cable of the Rock Island road made the following statement: "The Omaha bridge controversy has not been settled and it is still in the Courts, and I do not see how it can be settled outside. I have had no conference with Gould."

Uneasy Carpenters.

By Associated Press.
BOSTON, March 31.—At a secret meeting of the Carpenters' Union last evening, it is said the expressed feeling against the Carpenters' and Builders' Association was very strong and that sentiments in favor of taking radical action were indulged in. One member stated after the meeting that there would be a strike for eight hours this spring.

Slowly Sinking.

Hot-Headed Italy Re-
calls Her Minister.

HER ATTITUDE TOWARDS U. S.

Is the Italian Government Pre-
paring to Cross Swords?

Exciting News from Washing-
ton Regarding Fava's Recall.

The Mafia Sequel.

By Associated Press.
WASHINGTON, March 31.—Baron Fava has presented to the State Department his recall by the Italian government and has demanded his passport. The Department was greatly surprised, because it was wholly unexpected and because the investigation into the New Orleans matter has not yet been completed. The reason given for the recall is:

"The King of Italy is dissatisfied with the progress of the adjustment between the two countries in regard to the New Orleans massacre."

This action can be construed in no other way than an act of open hostility on the part of the Italian government to the United States, with which it has heretofore been on friendly terms.

The Italian Minister has left the Marquis Imperiali, and the situation is so new and so serious that no official comments can be obtained at this hour from any source. There must be time for the Administration to think, and barring the two hours' Cabinet session to-day, it has as yet had little or no opportunity to digest the facts in a calm manner.

Secretary Blaine, it is stated, will make an official announcement of Baron Fava's recall to-morrow, which may possibly contain the views of this Government, but in the meantime the Baron's pleasant personal relations with the State Department and this country will have been severed. It is doubtful whether, in view of the extraordinary circumstances of the recall there will be the formalities at the White House usual upon such occasions as the departure of a Minister.

Indeed, when this affair is looked at from a distance of time, it will appear to have been very much hurried. The letter from Governor Nicholls to Secretary Blaine caused the trouble. It was received here several days ago, and a copy was sent at once to Baron Fava. This, of course, gave it the appearance of being the ultimatum of this government, and it appears that the Baron accepted it as such and cabled it in that character to his government. Baron Fava has worked for his home interests to a degree of appearing over-zealous at this end of the line, but to-day's developments would indicate that there could not have been too much zeal on his part to suit his government, which appears to have made the matter an issue of the highest importance.

Those commenting on the surprising events of the day agree that to break away from this government is not merely an act of discourtesy, but open hostility. To have done it pending an investigation and the progress of the law in New Orleans is significant, it is said, of an utter disregard of the conventionalities and ethics of modern diplomacy. Indeed, in that light, this government now has a logical reason for feeling affronted at this lack of faith in its assurances on the part of its hot-headed neighbor.

A special to the Commercial Advertiser says: "This action on the part of the Italian government is almost equivalent to a declaration of war, or at least smells very strongly of gun-powder. It is likely that Congress will be called together at once and that preparations will be made to meet any contingency that may arise."

Confidence Restored.

By Associated Press.
KANSAS CITY, March 31.—The American National Bank of this city, which failed January 19th resumed business this morning with over \$1,725,000 in cash in its vaults, and it was predicted there would be a run on the bank when it opened but on the contrary the bank has received deposits from its old customers and there is a general feeling of confidence in the new organization.

Assurance By the Sioux.

By Associated Press.
WASHINGTON, March 31.—The Commissioner of Indian affairs has just received the following from Dr. Eastman, a full-blood Sioux and government physician at Pine Ridge Agency in South Dakota: The newspapers have been reporting me as saying there will be trouble in the spring. You know what I said to you in regard to this matter. There is no danger. I am more confident of this now than when I saw you. American Horse came into my office to-day saying that he, too, had been reported as becoming hostile. He said to me, "Tell the Commissioner and General I shall stand true to my word and position in regard to trouble. I have not said one word to give that impression. I think some of my enemies have lied about me."

Wrecked on a Rock.

By Associated Press.
DETROIT, March 31.—The new steamer City of Detroit of the Detroit and Cleveland Steam Navigation Co., ran on a rock at Lime Kiln crossing, about fifteen miles below Detroit, this morning, while on her way to Cleveland. The vessel struck amidship and filled one air-tight compartment. A scene of confusion ensued among the passengers on board, but order was soon restored and the boat ran into the Canadian Pacific slip, where she is now being pumped out. The damage done is confined entirely to the hole in the vessel, none of the freight or baggage being injured.

A SOCIAL SESSION.

Amusements for the Millions at McKissick's To-morrow Night.

There will be an extremely social session at McKissick's Opera House to-morrow evening, when Sprague's company of comedians present their latest comedy success, "A Social Session." The production is thus described: It is a highly constructed skit without any plot to speak of, indeed a plot would be out of place in "A Social Session." It has been put together with one object solely in view of creating hearty laughter. To much laughter is wearisome, and as a relief numerous clever specialties and some good singing have been introduced, making a combination that will please from either standpoint.

Before the Fifty-first Congress adjourned authority was given Senator Allison and Mr. Cannon, chairman respectively of the Senate and House Committees on Appropriations, to prepare statements for insertion in the record showing the amounts appropriated by the last Congress and the increases or decreases of appropriation compared with the Fifty-fifth Congress.

The statements have been carefully prepared and show in detail how the public money has been expended.

The statement prepared by Mr. Cannon shows the amounts appropriated during the Fifty-fifth and Fifty-first Congresses under the several bills to have been as follows:

Mr. Cannon, in an index to this bill, says that there should be added to the appropriations of the Fifty-fifth Congress and deducted from the appropriations of the Fifty-first Congress the sum of \$25,321,907 to meet the deficiency for payments of pensions in the appropriations made by the former Congress.

Mr. Cannon then argues against increasing the number of committees having charge of appropriation bills, and says the system of distributing the appropriation bills among various committees is vicious and tends to beget extravagance in appropriations. He thinks one committee of the House should be charged with the preparation of the money bills for its consideration, and indulges the hope that the incoming House will remedy the error of its Democratic predecessor and commit the general appropriation bills to one committee.

He cites as an example of the unwisdom of having many appropriation committees, the Indian appropriation bill of the past session prepared by and under the parliamentary control of the Committee on Indian Affairs.

The Senate placed on the Indian appropriation bill, by way of amendment, an item of legislation and appropriation, giving to the Choctaw and Chickasaw in round numbers \$3,000,000 for a supposed equity in certain lands in the Indian Territory, which equity, the Secretary of the Interior states, does not exist, and which, if it does exist, is of no value. This amendment was carried in the Senate by a vote of 36 yeas to 23 nays. Of those voting in the affirmative twenty-five were Democrats and eleven were Republicans, while the twenty-three voting in the negative were all Republicans. In the House, on a motion I made to instruct the House conferees not to agree to the Senate

amendment, those voting for the instruction were seventy in all, of whom sixty were Republicans and ten were Democrats, and those voting against the instruction were in all 102, of whom forty-three were Republicans and fifty-nine Democrats. The principal champions in debate and by vote of the amendment, both in the Senate and House, were Democrats. In my opinion the result can only be explained by the action of the minority, on the supposition that they were not responsible, and I am satisfied it would not have been accomplished if the Indian appropriation bill, with all the other general appropriation bills, had been under the parliamentary control of one committee on appropriations.

Mr. Cannon concludes his statement with an expression of his gratification at the legislation of the Fifty-first Congress, and congratulates the country on the reduction of taxation, which upon sugar alone, he says, amounts to \$55,000,000 per annum.

Chairman Allison, in his statement, gives somewhat in detail the reasons which operated in the several appropriation acts to increase expenditures authorized by the present Congress over those of its predecessor. He says the increase of \$1,441,473 under the agricultural appropriation act was caused by the establishment of agricultural experiment stations and the transfer of the Weather Bureau from the War Department.

In the Army appropriation bill the small increase of \$32,853 was for the expenses of recruiting, and in the diplomatic and consular service a reduction of \$40,750 was made.

The increase of \$637,849 for the District of Columbia was for the police department, street improvements and public schools, and under fortifications the increase of \$2,874,146 was for continuing the construction of mortar batteries for the defense of Boston, New York, San Francisco and other harbors, and for the new gun factory at Watervliet, N. Y. In the Indian bill the increase of \$7,307,146 was made to carry into effect recent treaties negotiated with various Indian tribes.

The increase of \$1,456,633 under the legislative, executive and judicial branch of the Government, was for clerical force in the various departments, mainly in the Pension Office. An increase of \$300,000 was made in the Internal Revenue Service, principally on account of the expenses of inspection of sugar, upon which a bounty is to be paid.

The appropriations for the Military Academy were less than those made by the last Congress by \$380,449.

The naval appropriations show an increase of \$14,042,244 for new ships for the navy and the improvement of plants at the navy yards.

Pensions show an increase of \$113,312,351, including deficiencies made by the Fifty-first Congress over the Fifty-fifth Congress. This increase was caused in part by the failure of the present Congress to make sufficient appropriations for the year 1890, leaving a deficiency of \$25,321,907 to be provided for.

An increase of \$22,668,441 under the Post Office bill was due to the growth and expansion of the service throughout the country. The increase of \$2,738,678 for river and harbor improvements was due to enlarged appropriations for some of the principal works of improvement in progress, such as the Mississippi and Missouri river improvements. The increase for sundry civil expenses of \$15,530,499 was for river and harbor improvements, expenses of the Eleventh census, public buildings, Government Printing Office, Home for Disabled Volunteers, military posts, for artificial limbs for soldiers, for the World's Fair, for the Life-Saving Service, for recoinage of silver coins, and quarantine service.

The deficiency appropriations, exclusive of pension deficiencies, were \$1,726,264 less than those made by the Fifty-fifth Congress, although an appropriation of \$1,804,000 for the payment of French spoliation claims was included in the bill.

The miscellaneous appropriation Acts show a decrease of \$9,159,221 over the Fifty-fifth Congress. This was caused in the main by the fact that many public building Acts passed by the Fifty-fifth Congress carried appropriations therefor, while the Fifty-first Congress excluded most of such appropriations from the special Acts and made special provisions in the sundry civil Acts.

It is stated, on good authority, that the Governor was opposed to the Act creating the State Board of Assessors, but the bosses silenced his opposition by asking "what he thought they elected him for."—Journal.

Does the Journal know what it is saying or is it so cramped and blinded by party prejudice that it has lost its reason? A grosser libel

never was published and for decency sake if for no other reason that paper should clean its skirts by giving its authority for such a charge, and if we were in Gov. Colcord's place we should take steps to see that it did. We do not believe that Governor Colcord is the tool of any man or body of men. He is the Chief Magistrate of this State and for the Journal to publish such a scurrilous thing about him is in very poor taste to say the least.

The Druggists

In Lowell, Mass., agree in saying that they sell more of Hood's Sarsaparilla than all other blood purifiers. For instance, F. C. Goodale: I sell more of Hood's Sarsaparilla than all other blood purifiers.

A. W. Dows & Co.: Hood's takes the lead of all other sarsaparillas.

C. F. Blanchard: We sell more of Hood's Sarsaparilla than any other.

Marston & Shaw: With us the sale of Hood's is 9 to 1 of any other kind.

F. & E. Butler: I sell more of Hood's Sarsaparilla to one of the best medicines.

Carlton & Hovey: Hood's Sarsaparilla is one of the best medicines we have. Its sale increases every year.

F. P. Moody: We sell twice as much of Hood's Sarsaparilla as of anything similar.

C. A. Swast: Hood's is the most popular sarsaparilla of the day.

Thirty other druggists speak similarly. This popularity at home, where Hood's Sarsaparilla and its proprietors have been known for many years, could not continue if the medicine did not possess merit. And these facts should certainly convince people in other sections of the country that Hood's Sarsaparilla is a good, reliable medicine.

How to Get Rid of Malaria.

Who has not suffered from malaria? We all had it when we ran races at school—we have it when we overwork ourselves at any age. It comes on, as everybody knows, suddenly. By using one of Alcock's Porous Plasters it goes away nearly as quickly. F. Rosewater of No 556 West 36th street, New York City.

"It is with pleasure I write these lines in testimony to the powers of Alcock's Porous Plasters. I have been somewhat annoyed with serious pains in my sides, for which several medicines have been prescribed, but to no avail, and through the advice of a friend I tried two Alcock's Porous Plasters, and the relief they have given me is both satisfactory and astonishing. To any one annoyed with pains these plasters are a certain remedy."

Is Disease a Punishment for Sin?

The following advertisement, published for a prominent western patent medicine house would indicate that they regard disease as a punishment for sin:

"Do you wish to know the quickest way to cure a severe cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. This can always be done if you choose to, as nature in her kindness to man gives timely warning and plainly tells in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold unless you choose to ward it off by prompt action. The first symptoms of a cold, in most cases, is a dry, loud cough and sneezing. The cough is soon followed by a profuse watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. Want to do? It is only necessary to take Chamberlain's Cough Remedy in double doses every hour. That will greatly lessen the severity of the cold and in most cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced." 50 cent bottles for sale by J. B. McCullough, Druggists.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, and now, my thin build and able to overcome the work on my farm. It is the finest medicine ever made." Jesse Middewort, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles; was given up by doctors; am now a host of health." Try it. Sample bottles free at Finner's drug store.

Quick Work.

From the Des Moines Mail and Times. A few days ago while sitting in Elder Bros' drug store at Tingley, Iowa, Mr. T. L. Dyer, a well known citizen, came in and asked for something for a severe cold which he had. Mr. Elder took down a bottle of Chamberlain's Cough Remedy and said: "Here is something I can recommend. It commands a large sale and gives genuine satisfaction. It is an excellent preparation and cheap." Mr. Dyer purchased a bottle, and the next day when we saw him he said he was much better, and the day following appeared to be entirely restored. This is a specimen of the effectiveness of this preparation. For sale by J. B. McCullough, druggist.

LAWS OF NEVADA.

Passed at the Fifteenth Session of the Nevada Legislature, Ending March 19, 1891.

The GAZETTE continues to-day the publication of the laws enacted by the last Legislature. Those of only local character are given in brief synopsis, while any of general interest will be given in full:

CHAP. XL.

An Act supplementary to an Act entitled "An Act to provide revenue for the support of the government of the State of Nevada," approved March 9, 1885, and the Acts amendatory thereof and supplementary thereto.

SECTION 1. The State Board of Assessors and Equalization is hereby created, which shall be known as the State Board of Assessors and Equalization of the State of Nevada.

Sec. 2. Said Board shall consist of the Governor, State Controller, Secretary of State, Attorney General and State Treasurer, of which the Governor shall be Chairman and the Controller shall be Secretary. A majority of the Board shall constitute a quorum for the transaction of business.

Sec. 3. The Board shall meet at the State Capitol on the second Monday of each month, and remain in session until all business that may properly come before it is disposed of. It shall also hold such special meetings as the Chairman may direct.

Sec. 4. The powers and duties of the Board shall be as follows:

1. To prescribe rules for its own government and for the transaction of its business.

2. To prescribe rules and regulations, not in conflict with the Constitution and laws of the State, to govern county Boards when equalizing, and Assessors when assessing.

3. To make out, prepare and enforce the use of forms in relation to the assessment of property.

4. To annually assess all railroads in this State at their actual cash value, and to apportion such assessments to the counties in which such railroads are located in proportion to the number of miles of main track laid in such counties; provided, that to each county shall be apportioned the total assessment of side track laid therein.

5. To transmit to the Auditor of each county a statement of the assessments made by said Board upon railroads, rolling stock and side tracks.

6. To meet at the State Capitol on the fourth Monday in September, and remain in session from day to day (Sundays excepted) until the third Monday of October, and at such session to equalize the valuation of the taxable property of the several counties in the State for the purpose of taxation, and to that end to increase or lower the entire assessment roll, or any class of property or individual assessment contained therein, so as to conform the assessment to the actual cash value of the property assessed; provided, that notice sufficient to afford a hearing shall be given the Clerk of the Board of County Commissioners where the whole assessed valuation of the county, or any class of property therein, is sought to be increased, and to the party interested for increase of individual assessment.

7. To avail itself of such means and to pursue such channels of information as it may deem necessary, in order to ascertain the correct valuation of all the property in the State, both real and personal, and in the behalf, in addition to other means employed by it, may call before it, or any member of it, or its agents duly appointed, any officers of a county, and require them to produce any public records in their custody.

8. To issue subpoenas for the attendance of witnesses, or the production of books and papers before the Board or any member thereof, which subpoena must be signed by a member of the Board, and may be served by any person.

9. To prescribe and enforce the duties of its Clerk.

10. To report to the Legislature biennially a statement showing for each year.

First—The acreage assessed of each county in the State.

Second—The amount assessed per acre.

Third—The aggregate value of all town and city lots.

Fourth—The aggregate value of all real estate in the State.

Fifth—The kinds of personal property in each county and the value of each kind.

Sixth—The aggregate value of all personal property in the State.

Seventh—Any information relative to the assessment of property and the collection of revenue.

Eighth—Such further suggestions as it shall deem proper.

11. To keep a record of all its proceedings.

Sec. 5. When the equalization among the several counties is completed, the Clerk of the Board shall transmit to each County Auditor a statement of the changes made by the Board in the assessment roll of the county, or in any assessment contained therein, and of the percentage to be added to or deducted from the valuation of such assessment roll, which shall be prima facie evidence of the regularity of all the proceedings of the Board resulting in the action which is made the subject matter of the statement.

Sec. 6. The Clerk or any member of the Board may administer or certify oaths.

Sec. 7. Members of the Board shall be entitled to their actual traveling expenses and for contingent clerical assistance while traveling, incurred by them in the discharge of their duties, the amount to be audited and allowed by the Board of Examiners, and paid out of the State Treasury in like manner as other claims against the State are allowed and paid. The Board shall hold its meetings in the office of the Secretary of State, in which shall be transacted all its business, except such as in its nature must be transacted elsewhere. The Secretary of State shall issue to the Board such supplies of stationery as it may require, and the Superintendent of State Printing shall execute its orders for printing.

Sec. 8. The President, Secretary, or Managing Agent, or such other officer as the State Board of Assessors and Equalization may designate of any corporation, and each person or association of persons, owning or operating any railroad in this State, shall, on or before the first Monday in September of each year, furnish to said Board a statement, signed and sworn to by one of such officers, or by the

person or one of the persons forming such association, showing in detail for the year ending on the thirtieth day of June next preceding:

1. The whole number of miles of railroad in the State, and where the line is partially out of the State, the whole number of miles without the State and the whole number within the State owned or operated by such corporation, person or association.

2. The whole number of miles of side track in the State, the number of miles in each county, and its value in each county.

3. The value of the whole railroad, and the value of the same within the State.

4. The width of the right of way.

5. The number of each kind of rolling stock used by such corporation, person or association in operating the entire railroad, including the part without the State.

6. Number, kind and value of rolling stock used in the State, but owned by the party making the returns.

7. Number, kind and value of rolling stock owned and operated in the State.

8. Number, kind and value of rolling stock owned, but used out of the State, either upon divisions of road operated by the party making the returns, or by and upon other railroads. Also showing in detail:

1. The gross earnings of the entire road.

2. The gross earnings of the road in the State, and where the railroad is let to other operators, how much was derived by the lessor as rental.

3. The cost of operating the entire road, exclusive of sinking fund, expenses of land department and money paid to the United States.

4. Net income for each year, and amount of dividend declared.

5. Capital stock authorized.

6. Capital stock paid in.

7. Funded debt.

8. Number of shares authorized.

9. Number of shares of stock issued.

10. Any other facts the State Board of Assessors and Equalization may require.

11. A description of the road, giving the point of entrance into and the point of exit from each county, with the statement of the number of miles in each county.

Sec. 9. When a description shall once have been given of the annual description will be necessary unless the road shall have been changed. Whenever the road or any portion of the road is advertised to be sold, or is sold for taxes, either State or county, no other description shall be necessary than that given by, and the same shall be conclusive upon the corporation, person or association giving the description. No assessment shall be invalid on account of a misdescription of the railroad, or the right of way for the same. If such statement is not furnished, as in the preceding section provided, the assessment made by the State Board of Assessors and Equalization upon the property of the corporation, person or association, shall be conclusive and final.

Sec. 10. The State Board, as a Board of Assessors, shall meet at the State Capitol on the second Monday in September of each year, and continue in open session from day to day (Sundays excepted) until the fourth Monday in September. At such meeting the Board shall assess all railroads, and the rolling stock and side track of all railroads operated in the State.

Assessments shall be made to the corporation, person or association of persons owning the same, and shall be made upon the entire railroad within the State, which shall include the right of way, bridges, culverts, tunnels, cuts, fills, embankments, and the land owned by the right of way, as well as the track of such railroad, including the rails, ties, and other appurtenances. The depots, stations, shops, and buildings erected upon the space covered by the right of way, and all other property owned by such person, corporation or association of persons, shall be assessed by the Assessor of the county wherein they are situated.

Within ten days after the day fixed by the Board in September, the Board shall apportion the total assessment of each railroad and the rolling stock of each railroad, to the county or counties in which such railroad is located, in proportion to the number of miles of its main track laid in such county or counties, and shall apportion to each county the total assessment of side track laid in such county. The Board shall also, within said time, transmit by mail to the County Auditor of each county to which such apportionment shall have been made, a statement showing the length of the main track of such railroad within the county, with a description of each track as given by the owner or owners, as provided in section eight of this Act, or a description sufficient for identification; the assessed value per mile of the same as fixed by pro rata distribution per mile of the assessed value of the whole railroad and the rolling stock of such railroad within the State, and the amount apportioned to the county; the number of miles of side track of such railroad within the county and its assessed value, and the valuation so fixed shall be taxable for town, city and district purposes, at the same rates and by the same officers, as the property of individuals within such city, town or district.

Sec. 11. Arbor Day should be generally observed in Reno. They have arranged an interesting program at the public school and the University, and nearly every child will plant some kind of a tree as a monument to his or her usefulness, and they should be encouraged by the older folks in the town, for

The groves were God's first temples. Ere man learned to hew the shaft or lay the architrave. And spread the roof above them—ere he framed.

The lofty vault to gather and roll back. The sound of an anthem—in the darkling wood. Amid the trees, the children of the dawn. And offered to the Mightiest, solemn thanks And supplications.

A Compliment. The People's Advocate of Austin publishes the following about Judge Cheney: "On Friday Judge A. E. Cheney held Court here and made things buzz about the Court-house for a few hours transacting business as if he had been a Judge for twenty years. The general sentiment by everybody was that Judge Cheney is a J. O. Dandy."

Good Times. Everything points to a healthy stock market on the Comstock. Con. Virginia is reported to have struck a dividend-paying body of ore and things look bright all along the line.

The GAZETTE last evening had displayed dated March 30, which appeared in the California papers two days ago, its inaccuracy seems to be chronic.—To-day's Journal.

When a paper has to resort to misrepresentations to sustain itself it is time to quit a discussion, and the GAZETTE will drop a subject that is of no interest to its readers, but before doing so it will give the Journal a chance to pick up a few dollars. We will give that paper \$100 in gold coin for any dispatch that it can find in yesterday's GAZETTE that did not come over the Associated Press wires addressed to us on that day.

Death of Mrs. Hardin. Mrs. C. H. E. Hardin, who has been dying of consumption for several months, breathed her last at 11 o'clock last evening at the home of her father, N. H. A. Mason, at 1404 McAllister street, San Francisco. Mrs. Hardin was well and favorably known by many in Reno. She was yet in the prime of young womanhood, and her demise is very sad. She leaves a husband and two bright children behind.

Reclamation Going on.

The Pioche Record says: "The dam built by the Panaca Water Storage Company two months ago, at the Hammond mill ranch, immediately below Bullionville, is full of water, which covers about sixty acres of ground. Its capacity is to be increased next year. The Syphus boys are breaking up an 80 acre plot of ground to be watered by the new reservoir, and others will soon follow suit."

Cleveland's Minstrels.

Cleveland's Minstrels were greeted with an appreciative audience last night. They give a first-class performance. Billy Emerson, the Pacific Coast favorite, is losing some of his charms, but is better than a greenhorn. The Cray family did some remarkable tumbling acts, and well worth the time and money that it cost to see them. They beat anything it has been the lot of this reporter to see.

The Frostrating Shock.

Of malarial fever are not to be counteracted by quinine with any degree of certainty or for any length of time. The eradication and prevention of diseases of a malarial type are, however, ascertained possibilities. Long experience has shown that there is infinitely more preventive efficacy in the fine botanic medicine, Hostetter's Stomach Bitters, than in the alkaloids and poisons which were formerly the only recognized means of removing and anticipating of fever and ague and bilious remittent. When the system has been depleted by repeated recurring paroxysms, this agreeable restorative removes the fund of energy, and is not only a positive specific, but repairs the damage to the general health inflicted by all febrile complaints partaking of the malarial character.

Advice to Mothers.

Mrs. Watson's German Syrup should always be used for children's teething, soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

PALACE DRY GOODS AND CARPET HOUSE.

A CARD!

OWING TO OUR MOVING INTO THE SPACIOUS STORE, occupied formerly by Mr. Manning, under the "Gazette" office, we find it necessary to facilitate the moving by disposing of a large portion of our stock. In order to accomplish such we have reduced every article in our establishment to such a price as to give the public an opportunity to lay in a supply, whether needed now or not.

THE INDUCEMENTS WILL BE GREAT!

We shall open our spring trade in our new quarters with a complete and new stock, which is being now selected under the most favorable cash conditions.

THE DRY GOODS

Will consist of the most desirable materials to suit rich and poor.

THE HOUSE FURNISHING GOODS

Will be complete in every detail.

THE FANCY GOODS

Shall not lack any article in want by the most particular housewife.

Our Stock of Carpets and Oil Cloths

Will embrace every brand in its line from a 50 cent Ingrain to \$1 50 Body Brussels.

The Wall Paper Department

Will consist from the cheapest to the choicest patterns.

The Ladies', Misses' & Children's Garments

Will be guaranteed to fit and to suit everyone's pocket.

In our dealings we will endeavor to continue to be as fair and square as heretofore, and will adhere to our "ONE PRICE System," so even a child may enter our establishment and purchase without fear.

In conclusion we take this opportunity to thank the public of Reno and surrounding country for the liberal patronage bestowed on us, and ask of them their kind continuance. Respectfully,
